preserved flowers and foliage
Verdissimo brand

Since its creation in 1988 in Paris, France, the Verdissimo brand has represented high-end preserved flowers, foliage and trees for unique and scale indoor and exterior decoration and design.

Throughout the years, Verdissimo has honed and proprietary technology has continuously improved, allowing us to provide you with a unique and sustainable product. Essential for the style and the beauty of our preserved products. Verdissimo’s mastered art and technology ensure that our products are of the highest quality, while still being affordable and effective.

The goal of Verdissimo is to enable you to enjoy the advantages and atmosphere of a natural beauty with an optimum balance between ease-of-use, ecology and economy.

What are preserved flowers and plants?
1. The preservation technology involves the following 3 basic steps:
   1. The flower/plant is harvested at the ideal point in terms of natural beauty from one of our 300,000m² of fields.
   2. The freshly harvested plant enters a proprietary process to absorb a specific mixture of 100% plant-based and bio-degradable preservation formula.
   3. The preservation liquid replaces the sap and water within the plant, effectively forming a still-image of nature, creating a unique and 100% natural product. The preserved flowers and plants remain beautiful and unchanged for months, even without watering, light and virtually maintenance-free.

4. The basic method of preserving flowers and plants has existed for many years, but was first patented as an industrial process in 1988. Today, the technology has been further developed and upscaled to be more efficient and large-scale operation.

Advantage of preserved Long-lasting and Maintenance-free

• The preserved flowers and plants require no water or light and maintain their original beauty and fresh look for months or even years.
• 100% natural: All preserved products are from natural flowers and plants that have been treated with a plant-based and biodegradable preservation formula. No toxic ingredients are used.
• Ecological: The preserved permanent flowers are much more efficient than fresh-cut flowers, reducing the need for regular watering and maintenance. The result is less water consumption and waste, which helps reduce the carbon footprint of indoor flowers. Over the years, the company has also reduced its water consumption by up to 80%.
• Economical: The maintenance of preserved plants is minimal. Over time, they also require less energy transport and storage.

Endless Possibilities

The unique attributes and broad variety of preserved flowers make them useful in a vast array of situations. From a simple bouquet that can become the centerpiece of your home to a grand wall of plants that can bring nature into your space without worrying about substantial maintenance or care.

Correct care and use

The care of preserved plants is not overly resource and easy to follow. With the right care, you can enjoy your natural product for many years.

- Follow the manufacturer's instructions carefully. These will vary depending on the type of preservation.
- Trim and arrange the preserved flowers to keep them fresh. Over time, they may need to be trimmed to maintain their shape and appearance.
- Avoid crushing, pressing or folding the foliage, petals or flowers.
- Avoid prolonged exposure to direct sunlight. Direct sunlight can cause the flowers to fade or discolor.
- Avoid exposure to humidity above 75%.
- Only for indoor use.
- No watering or placing the product in water.
- Use an air blower or air spray to remove dust and debris.
- Dust gently with a soft, dry cloth.
- To keep your preserved flowers and plants in optimum condition, please follow these guidelines:
  - Avoid crushing, pressing or folding the foliage, petals or flowers.
  - Avoid prolonged exposure to direct sunlight.
  - Avoid exposure to humidity above 75%.
  - Only for indoor use.
  - No watering or placing the product in water.

The Verdissimo preserved plants are extremely resistant and long lasting. With the right care, you can enjoy your natural product for many years.
A smile, a “here I am”, a child’s game, that look from the one that got away.

Moments that you keep near your heart so that they never grow old.
Photos that keep your memories from fading.

Events frozen in time to conserve their youth.
Who is to say that we cannot do the same with a flower?

We stop time because our flowers last forever.
We preserve them.
From cultivation

The flower/plant is harvested at the ideal point in terms of natural beauty from one of our 300,000m² of fields. The freshly harvested plant enters a proprietary process to absorb a specific mixture of 100% plant-based and biodegradable preservation formula.

The preservation

The preservation liquid replaces the sap and water within the plant, effectively forming a still image of nature, creating a unique and 100% natural product. The preserved flowers and plants remain beautiful and unchanged for months without watering, light and virtually maintenance-free.

How are preserved flowers collected?

The entire pruning process is carried out by highly trained artisans and the technique is uniquely developed for preserving.

The specific knowhow used to prepare the flower for preservation is the key to reflecting the beauty of the flower at its best.

Our farms around the world

IN COLOMBIA, OUR PROPRIETARY FARMS CULTIVATE ROSES, GREENERY AND EXOTIC FLOWERS LIKE ORCHIDS AND HYDRANGEAS.

IN ECUADOR WE SPECIALIZE IN ROSES, ESPECIALLY LARGE AND VOLUMINOUS VARIETIES.

THE MAJORITY OF OUR VAST RANGE OF DESIGN-BASED GREENS COMES FROM SELECTED FARMS ALL AROUND EUROPE.

IN COLON replacement of sap and water within the plant, effectively forming a still image of nature, creating a unique and 100% natural product. The preserved flowers and plants remain beautiful and unchanged for months without watering, light and virtually maintenance-free.
The basic method of preserving flowers and plants has existed for many years, but was first patented as an industrial process by Verdissimo over 30 years ago. Through the dedicated effort by the Verdissimo team, the technology has optimized and upscaled to today’s efficient and large scale operation.
Throughout the more than 30 years of experience in the market, we have developed a technology that has allowed us to offer and continuously improve our exclusive products that bring the atmosphere of nature into our homes and workplaces. This commitment to quality and innovation has allowed Verdissimo to enjoy the trust and loyalty of our customers, who value the variety of products and the capacity to drive the preserved world forward. Over the years our customers have enjoyed the product all over the world, including companies such as Interflora, Chopard, and Disney. The variety of creations that our customers have prepared with our preserved products is endless. You can find professional florists, interior designers and decorators using our products to create special atmospheres in restaurants, museums, hotels, events, and homes. The natural appearance, beauty, versatility, and ease of use of our products for these uses are unparalleled.

Verdissimo World

Throughout the more than 30 years of experience in the market, we have developed a technology that has allowed us to offer and continuously improve our exclusive products that bring the atmosphere of nature into our homes and workplaces. This commitment to quality and innovation has allowed Verdissimo to enjoy the trust and loyalty of our customers, who value the variety of products and the capacity to drive the preserved world forward. Over the years our customers have enjoyed the product all over the world, including companies such as Interflora, Chopard, and Disney. The variety of creations that our customers have prepared with our preserved products is endless. You can find professional florists, interior designers and decorators using our products to create special atmospheres in restaurants, museums, hotels, events, and homes. The natural appearance, beauty, versatility, and ease of use of our products for these uses are unparalleled.

In the floral sector, preserved flowers are perfect for making long-lasting flower arrangements to keep for years, ideal for bridal bouquets, the flowers in the arrangement for a loved one, or a unique Saint Valentine’s Day gift.

Helichrysum, also known as Rice Flower, is a type of plant that produces small, colorful flowers in various colors:

- **Pink**: HDI 0440
- **Yellow**: HDI 0300
- **Pink**: HDI 0440
- **Orange**: HDI 0530
- **Orange**: HDI 0550
- **Blue**: HDI 0610
- **Blue**: HDI 0820

The flowers are available in 24 bouquets per carton, weighing approximately 120 grams each. Helichrysum plants grow up to 30-60 cm tall. These flowers are perfect for creating unique floral arrangements or as fillers in more elaborate designs.

We stop time because our flowers last forever.

Verdissimo
The Aqua Flo system offers a simple and aesthetic solution for two important needs:

- Simulate the effect of water
- Secure your creation in any base or support.

It comes as two separate components mixed together to create both a powerful adhesive and a beautiful image of water to complete any arrangement.
