Preserved flowers and foliage
The unique preservation technology involves the following 3 basic steps:

1. The flower/plant is harvested at the ideal point of time in terms of natural beauty from one of our 300,000m² of fields.
2. The freshly harvested plant enters a proprietary process to absorb a specific mixture of 100% plant-based and biodegradable preservation formula.
3. The preservation liquid replaces the sap and water within the plant, effectively forming a still-image of nature, creating a unique and 100% natural product. The preserved flowers and plants remain beautiful and unchanged for months without watering, light, and virtually maintenance-free.

The basic method of preserving flowers and plants has existed for many years, but was first patented as an industrial process by Verdissimo over 30 years ago. Through the dedicated effort by the Verdissimo team, the technology has improved and upscaled to today’s efficient and large scale operation.

The Verdissimo preserved plants are extremely resistant and long lasting. With the right care, you can enjoy your natural product for months or even years. The Verdissimo natural products do not require pruning or watering.

To keep your Verdissimo flower or plant in optimum conditions, please follow these recommendations:

- Avoid crushing, pressing or folding the foliage, petals or flowers.
- Avoid prolonged exposure to direct sunlight.
- Avoid exposure to humidity above 75%.
- Only for indoor use.
- No watering or placing the product in water.

Advantage of preserved flowers and plants:

- Long-lasting and Maintenance-free: flowers in a special preservation process that do not require any water or light and can be easily transported and stored.
- 100% natural: all preserved products by Verdissimo are natural, flowers and plants that have been treated with a mixture of plant-based and biodegradable preservation liquid. No toxic ingredients are used.
- Ecological: the preserved plants provide much longer efficiency than fresh, cut flowers, due to their long shelf-life and low energy transport and storage. The result is that the preserved flowers have a carbon footprint significantly lower than their fresh cut or artificial flowers. Only minutes the environment in one hour of time.
- Economical: the Verdissimo natural products are excellent value because of their long shelf-life and low energy transport.

Endless Possibilities:
- The unique attributes, and vast variety of the Verdissimo preserved flowers make them suitable for a wide variety of use, from bouquets, garlands and arrangements to the most challenging applications.
- The products are bound to have the memory alive, for years or even decades. From an anniversary to your great-great-grandchildren, plants that bring memories to your loved ones are always worth a substantial maintenance or care.

Correct care and use:

- The flowers and plants are not very sensitive and long-lasting. With slight care, you can enjoy your natural product at its fullest state.
- The flowers and plants are housed in a preservation solution.
- The only care the preserved flowers need is occasional removal of dust, ideally with an air spray, air blower/dryer or alternatively dusting with a soft cloth.
- Store your Verdissimo Flower in its original condition, please follow these recommendations:
  - Avoid placing, pressing or folding the foliage, petals or flowers.
  - Avoid prolonged exposure to direct sunlight.
  - Avoid exposure to humidity above 75%.
  - Only for indoor use.
  - No watering or placing the product in water.

Verdissimo brand:

Since its inception in 1988 in Paris, France, the Verdissimo brand has represented high-end preserved flowers, foliage and trees for unique and sustainable interior decoration and design.

Throughout the years, Verdissimo has been a forerunner and preeminent leader in this industry, consistently improving the techniques and developing new products. Today, it is recognized as one of the leading preserved flowers and plants brands worldwide, offering the best preserved products and care for the environment.

The goal of Verdissimo is to enable you to enjoy the advantages and atmosphere of a natural beauty with an optimum balance between ease-of-use, ecology and economy.

What are preserved flowers and plants?

- The unique preservation technology involves the following 3 basic steps:
- The flower/plant is harvested at the ideal point of time in terms of natural beauty from one of our 300,000m² of fields.
- The freshly harvested plant enters a proprietary process to absorb a specific mixture of 100% plant-based and biodegradable preservation formula.
- The preservation liquid replaces the sap and water within the plant, effectively forming a still-image of nature, creating a unique and 100% natural product. The preserved flowers and plants remain beautiful for months without watering, light, and virtually maintenance-free.

Advantage of preserved flowers and plants:

- Long-lasting and Maintenance-free: flowers in a special preservation process that do not require any water or light and can be easily transported and stored.
- 100% natural: all preserved products by Verdissimo are natural, flowers and plants that have been treated with a mixture of plant-based and biodegradable preservation liquid. No toxic ingredients are used.
- Ecological: the preserved plants provide much longer efficiency than fresh, cut flowers, due to their long shelf-life and low energy transport and storage. The result is that the preserved flowers have a carbon footprint significantly lower than their fresh cut or artificial flowers. Only minutes the environment in one hour of time.
- Economical: the Verdissimo natural products are excellent value because of their long shelf-life and low energy transport.

Endless Possibilities:
- The unique attributes, and vast variety of the Verdissimo preserved flowers make them suitable for a wide variety of use, from bouquets, garlands and arrangements to the most challenging applications.
- The products are bound to have the memory alive, for years or even decades. From an anniversary to your great-great-grandchildren, plants that bring memories to your loved ones are always worth a substantial maintenance or care.

Correct care and use:

- The flowers and plants are not very sensitive and long-lasting. With slight care, you can enjoy your natural product at its fullest state.
- The flowers and plants are housed in a preservation solution.
- The only care the preserved flowers need is occasional removal of dust, ideally with an air spray, air blower/dryer or alternatively dusting with a soft cloth.
- Store your Verdissimo Flower in its original condition, please follow these recommendations:
  - Avoid placing, pressing or folding the foliage, petals or flowers.
  - Avoid prolonged exposure to direct sunlight.
  - Avoid exposure to humidity above 75%.
  - Only for indoor use.
  - No watering or placing the product in water.

Verdissimo brand:

Since its inception in 1988 in Paris, France, the Verdissimo brand has represented high-end preserved flowers, foliage and trees for unique and sustainable interior decoration and design.

Throughout the years, Verdissimo has been a forerunner and preeminent leader in this industry, consistently improving the techniques and developing new products. Today, it is recognized as one of the leading preserved flowers and plants brands worldwide, offering the best preserved products and care for the environment.

The goal of Verdissimo is to enable you to enjoy the advantages and atmosphere of a natural beauty with an optimum balance between ease-of-use, ecology and economy.
A smile, a “here I am”, a child’s game, that look from the one that got away.

Moments that you keep near your heart so that they never grow old.
Photos that keep your memories from fading.

Events frozen in time to conserve their youth.
Who is to say that we cannot do the same with a flower?

We stop time because our flowers last forever.
We preserve them.
The flower/plant is harvested at the ideal point in terms of natural beauty from one of our 300,000m² of fields. The freshly harvested plant enters a proprietary process to absorb a specific mixture of 100% plant-based and bio-degradable preservation formula. The preservation liquid replaces the sap and water within the plant, effectively forming a still-image of nature, creating a unique and 100% natural product. The preserved flowers and plants remain beautiful and unchanged for months without watering, light and virtually maintenance-free.

How are preserved flowers collected?
The entire pruning process is carried out by highly trained artisans and the technique is uniquely developed for preserving.
The specific knowhow used to prepare the flower for preservation is the key to reflecting the beauty of the flower at its best.
The basic method of preserving flowers and plants has existed for many years, but was first patented as an industrial process by Verdissimo over 30 years ago. Through the dedicated effort by the Verdissimo team, the technology has optimized and upscaled to today’s efficient and large scale operation.
“Good architecture lets nature in.”

Marie Pei

“Study nature, love nature, stay close to nature.”

Frank Lloyd Wright

Space and interior decoration

At Verdissimo we are convinced that nature is a “must have” complement for any space and interior decoration. That’s why we included in our recently redesigned offices a showroom that can be visited virtually and, once feasible again, as well on site.

“Good architecture lets nature in.”

Throughout the more than 30 years of experience in the market, we have developed a technology that has allowed us to offer and continuously improve our exclusive products that bring the atmosphere of nature into our homes and work places. This commitment to quality and innovation has allowed Verdissimo to enjoy the trust and loyalty of our customers, who value the variety of products and the capacity to drive the preserved world forward.

Over the years our customers have enjoyed our products all over the world, including companies such as Interflora, Chopard, and Disney. The variety of creations that our customers have prepared with our preserved products is endless. You can find professional florists, interior designers and decorators using our products to create special atmospheres in restaurants, museums, hotels, events, and homes. The natural appearance, beauty, versatility, and ease of use of our products for these uses are unparalleled.

In the floral sector, preserved flowers are perfect for making long-lasting flower arrangements to keep for years, ideal for bridal bouquets, the flowers in the arrangement for a loved one, or a unique Saint Valentine’s Day gift.

NEW PRODUCTS AND DEVELOPMENT

Florists, interior designers, and decorators are the main sources of inspiration for the development of new products. We work closely with them to respond to the latest trends in the market.

VERSATILITY

Verdissimo products are used all around the world for interior decoration and design in hotels, restaurants, airports, events and homes. The versatility of our products is creatively used anywhere where the beauty of nature is needed and desired.

We stop time because our flowers last forever.

Verdissimo
The Aqua Flo system offers a simple and aesthetic solution for two important needs:

- Simulate the effect of water
- Secure your creation in any base or support.

It comes as two separate components mixed together to create both a powerful adhesive and a beautiful image of water to complete any arrangement.

Aquaflo by Verdissimo
