preserved flowers and foliage
The unique preservation technology involves the following 3 basic steps:

1. The flower/plant is harvested at the ideal point in terms of natural beauty from one of our 300,000m² of fields.
2. The freshly harvested plant enters a proprietary process to absorb a specific mixture of 100% plant-based and bio-degradable preservation formula.
3. The preservation liquid replaces the sap and water within the plant, effectively freezing a perfect image of nature, creating a unique and 100% natural product. The preserved flowers and plants remain beautiful and unchanged for months without watering, light and virtually maintenance-free.

The basic method of preserving flowers and plants has existed for many years, but was first patented as an industrial process by Verdissimo over 30 years ago. Through the dedicated effort by the Verdissimo team, the technology has optimized and upscaled to today’s efficient and large-scale operation.

The Verdissimo preserved plants are extremely resistant and long-lasting. With the right care, you can enjoy your natural product for months or even years. The Verdissimo natural products do not require pruning or watering.

To keep your Verdissimo flower or plant in optimum conditions, please follow this advice:

- Avoid crushing, pressing or folding the foliage, petals or flowers.
- Avoid prolonged exposure to direct sunlight
- Avoid exposure to humidity above 75%
- Only for indoor use
- No watering or placing the product in water

What are preserved flowers and plants?

- 100% natural
- All preserved products by Verdissimo are real, natural flowers and plants that have been treated with a plant-based and biodegradable preservation liquid. No toxic ingredients are used.
- Ecological: The Verdissimo preserved plants are more environmentally friendly than cut flowers, moving to the large shift we need for environmental responsibility. The result is that the carbon footprint of natural flowers is significantly reduced.
- Economical: The maintenance of preserved products is minimal, a total advantage for both you and the environment.

Endless Possibilities

The unique attributes and broad variety the Verdissimo preserved flowers make them useful in a vast array of situations. From a bridal bouquet that will keep the memory alive for years to a green wall of plants that bring nature into your life without worrying about substantial maintenance or cost.

The goal of Verdissimo is to enable you to enjoy the advantages and atmosphere of a natural beauty with an optimum balance between ease-of-use, ecology and economy.

Verdissimo brand

Since its foundation in 1988 in Paris, France, the Verdissimo brand has represented high-end preserved flowers, foliage and trees for unique and sustainable interior decoration and design.

Throughout the years, Verdissimo has focused on preserving the beauty of flowers and plants in a sustainable way, using non-toxic and biodegradable products. Based in France, Verdissimo has developed its know-how and technology to offer its customers the best possible products and also a better maintenance.

Correct care and use

The flowers and plants are not merely decorative but living beings. With a little care, you can enjoy your natural product for many years to come. This section provides the basic instructions you need to take good care of your flowers and plants.

How to maintain your flowers or plants in optimal conditions, please follow this advice:

- Avoid standing, pressing or folding the foliage, petals or flowers
- Avoid prolonged exposure to direct sunlight
- Avoid excess moisture
- Avoid temperature above 70°C
- Only dry clean care
- No watering or placing the product in water

Advantages of preserved flowers and plants

- Long-lasting and Maintenance-free
- 100% natural
- All preserved products by Verdissimo are real, natural flowers and plants that have been treated with a plant-based and biodegradable preservation liquid. No toxic ingredients are used.
- Ecological: The Verdissimo preserved plants are more environmentally friendly than cut flowers, moving to the large shift we need for environmental responsibility. The result is that the carbon footprint of natural flowers is significantly reduced.
- Economical: The maintenance of preserved products is minimal, a total advantage for both you and the environment.

Endless Possibilities

The unique attributes and broad variety the Verdissimo preserved flowers make them useful in a vast array of situations. From a bridal bouquet that will keep the memory alive for years to a green wall of plants that bring nature into your life without worrying about substantial maintenance or cost.

Since its creation in 1988 in Paris, France, the Verdissimo brand has represented high-end preserved flowers, foliage and trees for unique and sustainable interior decoration and design.

Throughout the years, Verdissimo has focused on preserving the beauty of flowers and plants in a sustainable way, using non-toxic and biodegradable products. Based in France, Verdissimo has developed its know-how and technology to offer its customers the best possible products and also a better maintenance.
A smile, a “here I am”, a child’s game, that look from the one that got away.

Moments that you keep near your heart so that they never grow old.
Photos that keep your memories from fading.

Events frozen in time to conserve their youth.
Who is to say that we cannot do the same with a flower?

We stop time because our flowers last forever.
We preserve them.
From cultivation

The flower/plant is harvested at the ideal point in terms of natural beauty from one of our 300,000m² of fields. The freshly harvested plant enters a proprietary process to absorb a specific mixture of 100% plant-based and bio-degradable preservation formula.

The preservation

The preservation liquid replaces the sap and water within the plant, effectively forming a still image of nature, creating a unique and 100% natural product. The preserved flowers and plants remain beautiful and unchanged for months without watering, light and virtually maintenance-free.
The basic method of preserving flowers and plants has existed for many years, but was first patented as an industrial process by Verdissimo over 30 years ago. Through the dedicated effort by the Verdissimo team, the technology has optimized and upscaled to today’s efficient and large scale operation.
Throughout the more than 30 years of experience in the market, we have developed a technology that has allowed us to offer and continuously improve our exclusive products that bring the atmosphere of nature into our homes and workplaces. This commitment to quality and innovation has allowed Verdissimo to enjoy the trust and loyalty of our customers, who value the variety of products and the capacity to drive the preserved world forward.

Over the years our customers have enjoyed the product all over the world, including companies such as Interflora, Chopard, and Disney. The variety of creations that our customers have prepared with our preserved products is endless. You can find professional florists, interior designers and decorators using our products to create special atmospheres in restaurants, museums, hotels, events, and homes. The natural appearance, beauty, versatility, and ease of use of our products for these uses are unparalleled.

In the floral sector, preserved flowers are perfect for making long-lasting flower arrangements to keep for years, ideal for bridal bouquets, the flowers in the arrangement for a loved one, or a unique Saint Valentine’s Day gift.

Verdissimo World

NEW PRODUCTS DEVELOPMENT

Florists, interior designers, and decorators are the main sources of inspiration for the development of new products. We work closely with them to respond to the latest trends in the market.

VERSATILITY

Verdissimo products are used all around the world for interior decoration and design in hotels, restaurants, airports, events, and homes. The versatility of our products is creatively used anywhere where the beauty of nature is needed and desired.

We stop time because our flowers last forever.

Verdissimo
The Aqua Flo system offers a simple and aesthetic solution for two important needs:

- Simulate the effect of water
- Secure your creation in any base or support

It comes as two separate components mixed together to create both a powerful adhesive and a beautiful image of water to complete any arrangement.

Aquaflo by Verdissimo

Need water? Get the perfect look.
